EVO-RX

REPTILE FOOD DATA SHEET

Manufacturing & Quality Assurance

Production Process:

EvoRx is produced under a rigorous HACCP plan, ensuring safety and quality:

- Sourcing high-quality animal by-products (ABP) such as chicken, rabbit, and tripe
- Precision mincing, blending, and sausage formation
- Secure packaging, frozen storage, and dispatch

Regulatory Compliance:

- **DEFRA ABP Number:** 05/007/8101ABP/PETR
- **APHA Plant License Number:** U1431242/PETR
- Complies with UK and EU pet food safety regulations (Regulation (EC) No 767/2009, No 1831/2003)

Storage & Handling

Storage Conditions:

- Store frozen at -18°C
- Keep separate from human food
- Defrost only the required amount in a sealed container
- Do not refreeze thawed product

Handling Instructions:

- Handle with the same hygiene precautions as raw meat
- Use a dedicated preparation area

Storage & Handling (cont.)

Handling Instructions cont.:

- Clean and disinfect surfaces and equipment before and after use
- Wash hands thoroughly after handling
- Dispose of packaging in accordance with local recycling regulations
- Discard uneaten portions promptly

Feeding Guidelines

Preparation:

- Defrost fully in a sealed container before serving
- Avoid defrosting in warm water or microwave
- Retain thaw juice for feeding

Feeding Instructions:

- Use long tweezers or forceps for safe feeding
- Replace frozen rodents with EvoRx based on equivalent weight
- Follow your reptile's usual feeding frequency
- Scan the QR code on packaging for a detailed feeding chart

Applications:

EvoRx is a convenient, nutrient-rich alternative to frozen rodents, supporting optimal health for snakes and other carnivorous reptiles.
