

# JungleDawn LED BAR

Safety, Installation and Maintenance Instructions

LampGuardPro		JungleDawn LED BAR	
RALGP0	16" / 410mm	RAJDP1Z	11.5" / 290mm
RALGP1	20" / 510mm	RAJDP2Z	18.5" / 470mm
RALGP2	26" / 660mm	RAJDP3Z	22.5" / 570mm
RALGP4	38" / 960mm	RAJDP4Z	34" / 870mm

## SAFETY

Protects animals. Protects lamps.

Allows as much light as possible to travel into the vivarium.

Minimum distance 5" / 125mm

## LINK CABLE / PROT5

The link cable will allow for up to 10 light units from one power source, including the ProT5 UVB Kit.

Code	RAJDP1Z	RAJDP2Z	RAJDP3Z	RAJDP4Z
Length	11.5" 290mm	18.5" 470mm	22.5" 570mm	34" 870mm
Watt	15W	22W	34W	51W
No LED's	72	108	216	288
Beam Angle	120°			
kWh/1000h	18.27	24.78	37.64	53.99
Working Temperature	20-40°C			
IP Rating	IP20			
Voltage	80-260V 60Hz			
Current	0.09A	0.12A	0.18A	0.26A

## KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE. READ AND FOLLOW ALL SAFETY INSTRUCTIONS.

**DANGER** - To avoid possible electric shock, special care should be taken if water is employed in the use of vivarium equipment. For each of the following situations, do not attempt repairs yourself; return the appliance to an authorized service facility or discard the appliance.

This product is designed for indoor use and the illumination of Vivariums and Terrariums only and will provide a good and safe service life, provided that these instructions are followed. Failure to do so may result in serious personal injury or property damage.

If you are in any doubt about the installation or operation of this product, please consult a qualified and experienced electrician.

Check that the voltage and frequency rating on the product label is the same as your electrical supply before proceeding further.

**WARNING**- To guard against injury, basic safety precautions should be observed, including the following:

- Disconnect from the mains supply socket before maintaining the Luminaire. Never pull on the cord to remove the plug from the socket, instead grasp the plug and pull to disconnect.
- The luminaire can get HOT. Never touch the luminaire while it is operating, allow adequate time for it to cool before attempting any maintenance.
- This luminaire is rated IP20 NOT waterproof so do not use above or around water.
- If electrical components of the appliance get wet unplug the appliance immediately. If the appliance shows any sign of water leakage disconnect from the power supply immediately.
- Do not use the appliance other than for its intended use. The use of non-Arcadia attachment or accessories is not recommended and may cause an unsafe condition.
- Do not install or store the appliance where it will be exposed to extremes of weather or temperatures below freezing.

## PHYSICAL INSTALLATION

Select a suitable site close to your electricity supply. Do not connect appliance to the mains supply socket during installation. This appliance is for indoor use only. Ensure the appliance is kept in a ventilated area and away from other heat sources. Make sure that the light from the appliance is aimed within the vivarium.

Place the luminaire in the desired position either on top of the Vivarium mesh or screwed to the top of the Vivarium.

Ensure the mains lead and the luminaire are kept well out of reach of animals that might bite or damage them.

## ELECTRICAL INSTALLATION

Before installing, ensure that the rated voltage and frequency of the luminaire match that of your power supply, and that the mains lead plug is fully compatible with your mains supply socket. If in doubt, please return the unit to the point of purchase for verification.

Plug the luminaire into the mains socket. A suitable plug in timer may be used with this product.

## TROUBLE SHOOTING

If the luminaire does not light:

- Check that the mains power is connected and switched on both at the wall (including Timer if used) and on the Luminaire.
- Check that the luminaire plug is properly fused.
- Check that the luminaire is rated for the same supply voltage that you are using.

## MAINTENANCE

Cleaning: Disconnect from the power supply and wait till the luminaire is cool before cleaning, this not only avoids smears but also reduces the likelihood of any damage from moisture entering the luminaire. Both the appearance and performance of your luminaire can benefit from regular cleaning. A damp cloth is normally adequate to clean the body.

## GUARANTEE

We offer a 12 month guarantee for our electrical products. These are guaranteed for 12 months from the date of sale. The keeper should return the fitting to store for basic testing with the original sales receipt. We do not cover user damage, (lamps inserted when power is available to the unit (Hot Starts) nor glass lamps. Fittings with suspected faults should be presented back to store for testing. If a fault is found and within this 12 month period an exchange may be offered at the point of purchase. In all cases please visit our YouTube channel for problem solving and lamp fitting advice.

## END OF USE RECYCLING INFORMATION

This product is covered by European Directive 2002/96/EC. Please do not dispose of this product or replacement lamps with your normal household waste. To safely and responsibly dispose of the product please ensure all the components are deposited in the appropriate areas of your local civic recycling center. Proper disposal of this product helps to prevent potential negative consequences for the environment and human health. All electronic components (this includes the power supply and the lamp holder) should be placed in the electronic waste recycling area.

Class II Luminaire.  
Double insulated.

Do not look directly  
at light source.
